Middleby Advantage offers a one-stop-shop solution

WEST DUNDEE, IL (April 18, 2016) – Davisware is pleased to announce our GlobalEdge (GE) and Global Trade subscribers will soon have the ability and convenience to source Middleby-branded service parts from a centralized location, in addition to maintaining current, factory direct options.

Thanks to our loyal customer and trusted partner, Middleby Advantage, all users on the aforementioned platforms have direct access to Middleby's multi-brand manufacturing network with the push of a button. This exclusive access enables users to browse Middleby's extensive list of manufacturing brands and purchase any and all desired service components on a single purchase order.

Representatives from Middleby Advantage will be onsite at Davisware's annual User Conference to promote this service and further discuss the details of this enhancement. All conference attendees are welcome to attend this session, which takes place on Monday, May 2nd at 5:00 – 5:30pm.

For more information on Davisware's 2016 User Conference, please visit our [website](#).

To learn more about Middleby Advantage, please visit www.middlebyadvantage.com, or you may contact Jim Kramer, General Manager: jkramer@middleby.com | 407.947.6469.

###

About Davisware, Inc.

Davisware, Inc. was founded in 1988 by Dan and Jennifer Davis. Since inception, Davisware has employed a service-first approach and upheld its mission to offer comprehensive, all-inclusive technology products serving our users' unique business needs. By closely working with our U.S. and Canada customers, as well as partnering with the best technology providers, we offer technology solutions critical to the growth and success of your business.

Davisware's premier product lines, including GlobalEdge (GE), S2K Vision, Global Field Solution (GFS), Global One Fleet (GOF), E2 and Global Warranty (GW), in conjunction with a dedicated customer service team, intuitive ability to continually update our technology systems and a strong commitment to excellence, give us and our users the competitive advantage in the marketplace.
